

UNITED NATIONS OCEAN CONFERENCE SIDE EVENT

G20 Ocean20

Progressing from Dialogue to Action beyond 2030

Our ocean speaks through many voices, including science, policy, society, and industry. Ocean20, the G20's ocean social engagement group, unites these voices into one call for action. Under South Africa's G20 presidency, we build on Brazil's legacy to champion the ocean as central to sustainable development. In 2025, global ambition meets African priorities to forge one clear purpose: a sustainable, inclusive future for our shared ocean.

One Ocean, Many Voices

ROOM 4 | NICE, FRANCE
9 JUNE | 15:45 - 17:00
